Club Member Receives Radio

In keeping up with the AARA policy over the many years, the club has been donating a HT to a lucky club member.

This is how it works: If you are a club member and attend our monthly club meetings, your name and call goes on a ticket which is put into a hopper. The meeting after our annual hamfest, a name is drawn from this hopper and that person is the "Lucky Winner".

Mich KB5TWL (l.) receiving the Quansheng TG-UV dual band HT from Club President Irma Bookter KE5UPK (r.).

The lucky winner for the year 2009-2010 year happens to be Mitch Romero KB5TWL of Coteau Homes (a.k.a. "The Voice of the Atchafalaya"). Abbigail Wilson KF5BEW pulled the winner. Mitch was unable to attend the March 20th drawing date, but was able to be there on the April 1st meeting to receive his prize.

This yearly drawing seems to help stimulate our attendance at our general club meetings.
